

PRODUCT DATA SHEET

Avery Dennison® SignMask Light Blue

issued: 04/2016

Rev: 3

Introduction

Avery Dennison SignMask Light Blue is a self-adhesive masking tape giving a sharp-edged finish to a painted graphic. It is a flexible product for use on flat, curved and irregular surfaces.

Description

Facefilm: 80 micron, flexible vinyl film
Adhesive: ultra-removable, acrylic based
Backing paper: one side coated white kraft paper, 125 g/m²

Conversion

Avery Dennison SignMask Light Blue can be cut on a wide range of flatbed and friction-feed cutting plotters. Depending on the size of the decoration or graphics, either application tape can be selected.

Features

- Excellent cutting and weeding properties.
- Good temporary bond to a wide variety of substrates.
- High transparency for precise positioning.
- Excellent facefilm flexibility for easy application to irregular surfaces.
- Excellent solvent resistance.
- Excellent removability from most surfaces.
- Register guides on the re-designed liner imprint.
- Product and manufacturing identification electronically printed on the liner.

Uses

Avery Dennison SignMask Light Blue is used to stencil painted decorations on to a wide variety of **flat and irregular** surfaces, e.g. smooth, corrugated, and rigid truck and van sides, sign boards, plywood, plastics, including glass fibre reinforced plastics, banners, etc.

Temperature Range

Application temperature : + 10° C
Service temperature : + 10° C to + 40° C

Shelf Life

Stored at 22°C / 50-55% RH : 2 year

Recommendations for use

Before using Avery Dennison SignMask Light Blue the following documentation should be consulted:

- TB 3.3: "Working procedures for Avery Dennison SignMask Films".
