

easiMARK Colourprint Premier Blockout

product specification

Digital print material for use with inkjet and eco solvent printers. For application onto 100% sublimated polyester (e.g. sportswear). This material creates a barrier to the garment preventing sublimation bleed. Suitable for solvent, eco-solvent or HP Latex based inks

- Full blockout prevents ink migration on sublimated garments
- Durable prints
- Thinnest on the market
- Supplied by the metre at 500mm and 750mm wide
- Print and cut
- Moves freely with the garment

Certified Oke-Tex
Standard 100 Class I

VEGANOK
AZIENDA N. 1004

step by step guide

prepare	print	apply
plotter settings blade: new at 45° knife pressure 80gf speed: 20 cm/sec	print and cut the material weed the excess material remove the print from the polyester backing using an application tape (we recommend EMATAPEC)	temperature: 130°C for 15 seconds medium pressure remove application tape hot (should you use other application tapes, follow the manufacturer's instructions)
