

# easiMARK DTF Double Matt 75

## product specification

Certified Oke-Tex  
Standard 100 Class I

easiMARK DTF Double Matt 75 is an eco-friendly DTF solution on PET film designed for printing/transferring graphics. This product produces great print results and has a soft touch matt finish. It is 75 microns thick.

- 75 microns thickness
- Vibrant colours (including neon) and good coverage of white colour
- Cold peel
- Enhanced washability
- High temperature resistant that prevents ink migration during the process
- No powder pollution

## step by step guide

1	2	3	4
Print the visual in mirror on the matt side of the film (coated side) with waterbased inks specific to DTF. Please refer to the inks and printers' operating instructions.	Apply the adhesive powder manually or by using an automatic powder shaker. Please refer to the adhesive powder's operating instructions.	Heat Transfer the visual to the textile- (recommendation : 130°C to 150°C / 10 to 15 sec - it may vary depending on the ink and adhesive powder). Please refer to the inks' and adhesive powder's operating instructions before making the transfer.	Remove the film Cold Peel

Suitable for any textiles.

## recommendations

Use latex gloves when handling - fingerprints can affect the print quality.

A test print and cut before each use is highly recommended due to variations in conditions of usage.

Store our products in a tempered and dry room, protected from direct sun rays and humidity. After each usage, put the roll back into its protective packaging to avoid humidity.

Please wait 24 hours after pressing before washing

Do not use bleach or other aggressive chemical agents
