

easiMARK Evoflex Blockout White

product specification

easiMARK Evoflex Blockout White is a heat seal material specifically designed for low temperature transfers on polyester sublimated garments. It prevents ink migration, so no colour from the garment bleeds through the film.

- Creates a barrier to dyes from sublimated fabrics
- Low pressing time and temperature

Certified Oke-Tex
Standard 100 Class I

step by step guide

cut	apply	press	remove backing film
cut mirror image and weed minimum required knife pressure 60 gf (45 degree blade)	apply heat sealable side down	130°C for 15 seconds medium pressure	when warm or cold

Colours

White

wash up to 40°C

do not dry clean

do not tumble dry

iron on reverse

Suitable for polyester fabrics without treatments and dyed with sublimation inks

recommendations
